Work Experience

Romio - Jr Front End

May 2014-Present

Worked with a great team of talented individuals to create a great product. Linked the front end to the back end by using an API. Also created cross client email templates.

Startup Institute

March-April 2014

Redesigned the Talent-expo brochures and certificates used in the program. Worked under immense time pressure to complete tasks and projects.

Anigramit

March-April 2014

Worked with an education company called Anigramit, to redesign their website. Designed a learning page to help the user understand how the products works. Also consulted with them on their landing page for their umbrella company and created a press page.

Krossover

April 2014

Consulted with Krossover to redesign the landing page for their up and coming product. Copied their style pixel by pixel to generate a webpage that spoke to the brand.
